

Three common mistakes in statistics and how to avoid them

Elizabeth Pankratz

Department of Psychology
The University of Edinburgh

Hello world

One slide. $a^2 + b^2 = c^2$.

More text.

Lorem ipsum.

Dolor sit amet.

I was wondering if there is a simple way to do the change of font size, colour and style (bold, italic, etc.) for particular words or phrases in individual xaringan slides within markdown.
